Profile

As a Software Engineer at Cybage Software, I excelled in creating scalable, API-centric infrastructures and spearheaded deployments enhancing software performance. My expertise in React.js and a knack for problem-solving led to significant, measurable improvements. I'm adept at both technical innovation and effective collaboration, ensuring projects meet and exceed customer expectations.

Professional Experience

Cybage Software

01/2022 - present

Software Engineer

Pune, India

- Engineered a modular, API-driven infrastructure for an e-commerce platform, leveraging React.js and Redux for state management, resulting in a 20% reduction in page load times.
- Developed a feature-rich internal dashboard for client operations, integrating REST APIs and increasing task efficiency by 30%.
- Spearheaded deployments across staging and production environments with 99.9% uptime, ensuring smooth feature rollouts.
- Enhanced application scalability by implementing lazy loading and optimized component structures.

Skills

Reactjs

JavaScript

Bootstrap

HTML

CSS

Tailwind

Responsive Designs

Contentful CMS

API integration

Software debugging

Education

B.E(E&TC)

2020

Smt Kashibai Navale College of Engineering

Pune, India

Certificates

- Diploma in advance computing (CDAC) - 6 Months
